

## **After thought to Miak's reflection:**

### **reflection on the elderly on 9th floor**

by Christine

19 Jan 05

Miak mentioned about this elderly on the 9th floor, who had her queen size mattresses n her phone replaced, all by the volunteers.

I must add this - she's very grateful and thankful to all of the volunteers... to tears, YES, TO TEARS! When i went to her flat again yesterday to kaipo about the replacing of her toilet flush by the HDB's contract plumber, she was moved to tears. She started crying in front of the co-ordinator from the welfare agency and me, saying how she was helpless, how even her grandson didn't care, how she appreciated our (all the volunteers') care... It was really heart-wrenching yet touching.

Yes, we are touching hearts, and transforming the nation in our ways. And you have made the difference! ;)
